The A-iPower Pressure Washer is built to handle even your toughest jobs. Powered by a reliable OHV 196cc/6.5 HP gasoline engine that feeds into an axial cam pump, It delivers 2,700 PSI of cleaning power at 2.3 gallonper Min. It is simple to use & perfect for cleaning driveways, sidewalks, gutters, stucco, roofing, walls, patios, Cars, RVs Trucks & other area around your house. It features a durable, compact frame design & Built-in never-flat wheels, which are designed for easy transport. With 25' Of non-marring, long-reach, high- pressure hose, it provides flexible access. With its quick-connect spray wands & nozzles with ergonomic grip handle, The A-iPower APW2700 pressure washer always allows you to operate efficiently & effortlessly. For added convenience, the pressure washer comes with an on-board accessory storage & 3 quick-connect nozzles for your versatile cleaning. The 0° nozzle is designed for blasting tough mud & rust. The 25° nozzle is designed for general cleaning of roofs, driveways & light stains. The soap nozzle is designed for those extra dirty jobs. Drop the built-in detergent siphoning tube into your detergent reservoir & attach the soap nozzle & you're ready to clean. When choosing a pressure washer, consider the PSI & GPM. Psi (poundsper square") measures the pressure of water created through the pressure washer that determines how powerful the water stream will be to penetrate the dirt & grime
