Description:  
ZX7-250 DC Inverter Welding Machine

Get professional welding power in a compact, portable design with the *\*ZX7-250 DC Inverter Welding Machine\**, available now at *\*Oneil Hall Electronics\**. Built for both professionals and DIY users, this machine delivers stable, efficient welding for mild steel, stainless steel, and cast iron.

*\*Why Choose the ZX7-250?\**

*\*1. Powerful & Efficient\**

With a 250A output range, the ZX7-250 handles everything from light repairs to heavy-duty welding jobs. The IGBT inverter technology ensures stable arc performance, less spatter, and deeper penetration while keeping energy consumption low.

*\*2. Portable & Durable\**

Weighing less than traditional welders and featuring a reinforced orange and black housing with rubber bumpers, this unit is built to withstand tough job sites. The carry handle makes it easy to move between projects.

*\*3. Easy to Use & Control\**

The digital current display and dual control knobs give you precise control over welding current and arc force. Whether you're a beginner or experienced welder, setup and adjustment are quick and intuitive.

**\*4. Wide Application\***

Ideal for welding gates, fences, car frames, metal furniture, construction work, and home projects.  
Compatible with most 2.0mm - 4.0mm welding rods.
